Tech Advisory Number: TAMCF00025

Merrychef® always strives to improve our products based on customer feedback and data.

This guide is for upgrading the conneX oven from version 2.0.0 / 2.0.1 / 2.0.2 to version 2.24.6b.

For guidance on updating the conneX oven from version 1.5.5b to version 2.24.6b please refer to technical advisory TAMCF00024.

NOTE: You will need a FAT32 formatted USB key / pen drive.

(For guidance on how to format a USB key, visit (NICK LEWIS, PUBLISHED MAY 20, 2022) How to Format a USB Drive on Windows 10 (howtogeek.com) for more information)

---

1. How to download the conneX firmware update.
    1.1.1. Copy and paste the below link into your web browser to access the website where you can download V2.24.6b firmware.
    https://assets.welbilt.com/share/55BE6BD7-FF99-4E0C-901C0B7FBCBF68EE/

    1.1.2. When prompted by the browser, select "save as" to save the file to a known location.
    1.1.3. Extract / Unzip the downloaded file.

(For guidance on how to unzip a file, visit (BENJ EDWARDS, UPDATED SEP 4, 2023. How to Zip (and Unzip) Files on Windows 10 (howtogeek.com) for more information)

---

2. Definitions

UI	User Interface, Touch screen
IO	Input/output board, IO board
